Flash Developers/Interaction designers - Shoreditch studio

About rehabstudio

We create engaging and experimental interactive sites, brand experiences and other interactive projects for our brand and agency clients in Europe & the US. Recent brand experiences include; Doritos, T-Mobile, Toyota, Cadburys & Saab.

We are looking for Flash Developers & Interaction Designers to join our London studio to produce some shit hot interactive campaigns.

See www.rehabstudio.com for more project information.

Responsibilities

- Flash Programmers required working on large, complex, creative flash builds
- This position requires at least 2-4 years experience with Flash technologies, preferably in a production company setup
- Liaise with other technical teams inside and outside of the studio
- Develop full site structure with loaders, connections to backend technologies
- Contribute to brainstorming and client discussions
- Awareness of best practices and emerging technology / trends

Skills

- AS3 with a good understanding of OOP & design patterns
- Practical experience with Flex, Air, 3D flash frameworks
- Strong aesthetic sense & strong attention to detail
- Experience with video content

Essential experience:

- Starting immediately
- Permanent on-site position, London
- Freelance to permanent contract possible

At rehabstudio we believe in nurturing and developing our team in whatever direction they want to go.
We work hard and have lots of fun in the process.
